

♥Who are we :

Welcome to the Petsom team! Petsom is a UK-based brand that sells fun, stylish products and accessories for pets—and we're on a mission to grow our global presence by partnering with pet-loving creators all around the world. Your job as an agent is simple and exciting: you'll search for TikTok and Instagram accounts that either belong to pets or to owners who regularly post about their pets. We're specifically looking for smaller accounts with a few followers, from countries we ship to, and who look like they can cover shipping costs. Once you find a good target, just leave them a friendly comment or send them a DM letting them know we'd love to work with them as brand ambassadors! If they're interested, you'll offer them our exclusive deal: they receive free products, and only need to cover the shipping. If they accept and place an order you get a commission for that, you'll send me a screenshot of the order, and at the end of each month, you'll receive your payment. The more good fits you find, the more you earn, you should leave 400 comments a day to get sales daily—so stay active, be selective, and have fun growing the Petsom family!
